

# Kayak Adventure Winter 2022

Roy, Charlotte, & David:

I am proposing that we take my kayaks for a Laguna Madre adventure. Please let me know if interested, and soon so that I can keep an eye on the weather. I realize some of us are quite often stuck in a lab, but I hope we can coordinate a time during the break.

What I have in mind is exploring the spoil islands, finding birds, creatures, etc and finding an island to cook lunch on. I have 2 kayaks that each seat 2. I have all the gear for paddling and cooking, so you three just need to come and enjoy.
